## House Report 112-491

**Maintenance of Aircraft Hangar** —The Committee recognizes the strategic importance of the Air National Guard components of the Aerospace Control Alert (ACA) mission and their role in our country's homeland defense. The Committee urges the Secretary of the Air Force to reprioritize its investments and place the maintenance facilities for legacy F-16 fighter aircraft with ACA missions that are responsible for high-value metropolitan areas at the top of the military construction list.

**Enforcement of Border Security** — Recognizing the need to bolster resources for the enforcement of border security, the Committee encourages the Army National Guard and the Air National Guard to consider, design, and construct facilities adjacent to our southwestern border that will support National Guard activities and house and support defense assets used by Customs and Border Protection and other law enforcement agencies for the terrestrial maritime, and aerial surveillance of those borders, to include aircraft hangars suitable for unmanned aerial systems.
