Executive Summary

The U.S. Joint Forces Command J7 Joint Warfighting Center (JWFC) is the executing office for joint certification of identified joint content since May 2006. To date, United States Joint Forces Command (USJFCOM) has signed certification packages for 315 of 499 identified joint services.

Since April 2007, 1972.5 JQO points have been earned from identified Joint Knowledge services. Of these 734 were earned within the officer community and 1240 from with the enlisted community. Additionally, 1991 points have been earned by DoD and DOS civilians, contractors, and those in an 'Others' category which may overlap with officer and enlisted points if an individual holds both Reserve and Civil Service or contractor status.

Joint Officer Management (JOM) Background

The Department of Defense Joint Officer Management Joint Qualification System Implementation Plan, 30 March 2007, outlines the multi-level joint qualification concept and identifies lead and supporting organizations responsible for operationalizing it effective 1 October, 2007.

Joint Qualified System (JQS)

The Goldwater-Nichols Department of Defense Reorganization Act of 1986 set the criteria for joint positions that the Defense Department has used ever since. The new Joint Qualification System, announced on 30 July 2007, keeps in place the tenets of the act, but allows for the post-9/11 operating environment. The new system, which took effect 1 October 2007, offers an additional “experience-based” track with a point system for recognizing joint service. The original track remains in place, but the second track allows for awarding partial credit or for awarding credit for an expanded list of joint positions. All original educational requirements remain in place, but some credit can be given for additional education, training, and exercises.

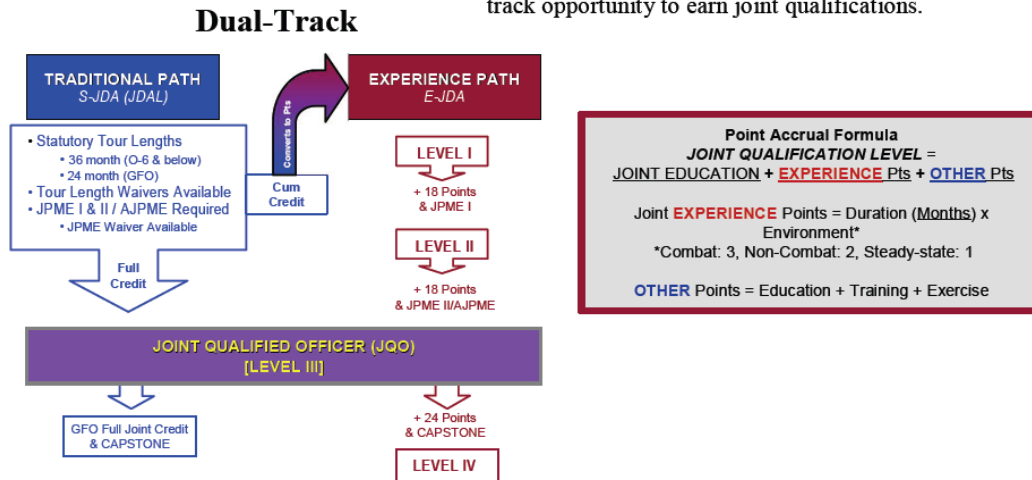

The new system recognizes the skills that aid U.S. military efforts to respond to national security threats, as well as interagency, combat operations, and humanitarian crises. It also accounts for the intensity, environment, and duration or frequency of a joint activity. A key change is the ability to award credit to reserve component officers, previously not allowed.

Active-duty officers will be able to recover credit for positions served since 11 September 2001. Reserve component officers who served in qualifying joint assignments from 1 October 1986, until 30 September 2007, may be awarded joint duty credit. As of 1 October 2008, active component officers are required to complete a full joint duty assignment and be designated a joint qualified officer for appointment to the rank of general or flag officer.

Joint Qualification System

The Joint Qualification System (JQS) authorized in NDAA 2007 (Public Law 109-364) provides a dual-track opportunity to earn joint qualifications.

Joint Qualified Officer (JQO) Points

JKDDC will continue to support the Joint Officer Management (JOM) program in its expansion of breadth and depth through FY09. JKDDC continues to serve as the action office for certification and scoring of individual Joint training in support of the Office of the Secretary of Defense (OSD) chaired JOM board. JKDDC provides outreach and identifies new individual Joint training sources from the Combatant Commands (COCOMs), Services, and Combat Support Agencies (CSAs). As part of the FY08 Program Executive Plan (PEP), JKDDC worked with the Joint Staff and OSD to increase understanding of JQS and its alignment with the Joint Learning Continuum (JLC) within the joint community.

JQO Points are awarded on a basis of 1.0 point per 40 hours of training. For example, completion of a 20 hour joint certified Distributed Learning course is awarded 0.5 JQO points.

The following matrix describes points awarded based on cumulative credit hours within a UJTL task area:

<u>Hours Training</u>	<u>Number JQO Points</u>
<16 hours	0 points
16 - 39 hours	.5 point
40 – 59 hours	1 point
60 – 99 hours	1.5 points
>100 hours	2 points

Note: 2 points is the maximum authorized.

Appendix A contains the table of the number JQS points earned to date based on an Officer and Enlisted demographic.

JKDDC Total Inventory

JKDDC tracks all identified joint content in the Joint Knowledge Services Database (JKSD), which resides in Joint Knowledge Online (JKO) on the NIPRNET and SIPRNET portals. As of 30 June 2009, there are 499 identified joint knowledge services. Users can search the JKSD by keyword, Universal Joint Task List (UJTL), or J-Code (see Figure 1).

Course Title	Global Combat Support System (GCSS)
Description	The GCSS Portal is a three-day course of instruction using a SIPRNET Web browser (Netscape, Internet Explorer, or Mozilla). The Portal capabilities vary from querying information, accessing other subject specific links to querying information on Facilities/Locations, Units, Materiel, Personnel, Plans, Transportation, WebQueries, and Lookups for codes for Joint or Service units. Students learn how to drill-down on information and cross functional areas to find related information. Additionally, students will learn how to operate the various portlets within GCSS.

Joint Certification Process

Joint certification originates with Enclosure H of the Joint Training Manual, CJCSM 3500.03B, signed 31 August 2007. In this document, USJFCOM JWFC J7 is identified to lead and manage the joint individual learning content certification process.

The certification criteria are five-fold:

1. Content must meet a joint training requirement
2. Content should not conflict with joint doctrine. In every case, training content must support emerging concepts of high or special interest to the joint warfighting community.
3. Joint training objectives must link to current UJTL.
4. Media must incorporate assessment of each trainee to track achievement of the training objectives.
5. Media must support content assessment as part of life cycle management.

Any entity may identify joint content and provide data to support the five criteria. These criteria are examined, and if found to meet the requirements, a certification package is prepared which outlines the details. The certification package is staffed at USJFCOM J7. Once signed, content is deemed to be Joint certified. A list of the current joint content that has been identified and its certification status is provided in Appendix B.

Requesting Joint certification of courseware is done through an online process using JKO's Joint Information Database (JIDB). The process for requesting Joint Certification of courseware is located in Appendix C.

The JIDB Stakeholders Guide is available for download on the JKO Portal in the JKO Products area of the web page. The JKO Portal is accessed via AKO.

Appendix C: Joint Information Database (JIDB) Joint Certification Process

The JIDB is the auditable, automated system for managing Stakeholder requirements and budget control. The JKDDC JIDB integrates with the Joint Warfighting Center's (JWFC) JIDB to provide a closed loop, automated system to collect Stakeholder requirements as they are submitted, and to maintain configuration control of requirement submissions as they are processed through the JMO for resource allocation and execution.

The JKDDC JIDB is located at:

URL: [JIDB https://www-secure.jwfc.jfcom.mil/jam/jam.jsp](https://www-secure.jwfc.jfcom.mil/jam/jam.jsp)

There is a three-step process to request Joint certification of courseware:

- Assigning roles: page 4 of the JIDB Stakeholders Guide
- Getting an account: page 6 of the JIDB Stakeholders Guide
- Submitting a request: page 9 of the JIDB Stakeholders Guide

For those submitting a Request for Service (RFS) to certify courseware as Joint, there are two primary roles of interest. They are:

Submitter Role

- Allows a Stakeholder to submit an RFS to JKDDC.
- Assigns Drafter access to individuals within the Stakeholder's organization.
- This role is usually a military or government civilian with the authority to make commitments for their Stakeholder organization. This might be the Senior Representative to the JKDDC Working Group or someone designated by them.

Drafter Role

- Allows an individual to draft, but not submit, an RFS.
- This role can be used for any member of a Stakeholder's organization who has a need for JKDDC support and is approved by and has been granted access by the organization's Submitter, for example, a training officer.

To access the JWFC JIDB you need a JFCOM account (this is **NOT** a JKO/DKO account). There are two types of JFCOM accounts:

- A JFCOM network account, used by internal JFCOM personnel.
- A JFCOM **Webgate** account, used by external Stakeholders.

1. To request a JFCOM **Webgate** account, navigate to the following URL:

<https://www-secure.jwfc.jfcom.mil/login/wgRequest.jsp>

2. Fill in all of the fields circled in green below, using the POC information as indicated, and submit. You will be notified via email when your **Webgate** account has been created.

You user name will be added to the JKDDC JIDB module, but you will not have your JKDDC JIDB role (and therefore no access within the JKDDC JIDB module).

Obtaining your JIDB Role

If your role is Drafter, contact your organization's JIDB representative (the person with the JKDDC JIDB Submitter role) to be granted access to the JKDDC JIDB module.

If your role is Submitter, send an email to the JIDB Manager at neil.rish.CTR@jcom.mil to be granted Submitter access.

When your appropriate role has been established, log in to the JIDB and complete a Number 11, Course Certification, and Request for Certification of Joint Content (residential courses, job aids, distance learning not on JKO).

JKDDC will apply the following JIDB process as appropriate to the specific request.
