Document Change Summary

These items were changed to reflect new document content (based on the USJFCOM Joint Qualification Report published for the previous quarter).

- **Title Page:** updated appropriate dates
- **Executive Summary:** updated number of active courses; added clarification to explain how course number is derived
- **Appendix A:** added newly certified courses; moved appropriate courses to Appendix B (based on course certification expiration dates, re-certification process, etc.); and expanded the generic “C4 Planners Course DL modules” record to accurately reflect the actual individual courses. Also, added a table with these same courses listed alphabetically by course title.
- **Appendix B:** removed Pending, Job Aids, and Not Certified course categories; changed “Archived Courses” to “Decertified/Revoked Courses;” added “Submitted for Certification” and “Course Re-Certification” course categories.

Executive Summary

The United States Joint Forces Command (USJFCOM) J7 Joint Warfighting Center (JWFC) has been the executing office for joint certification of identified joint content since May 2006.

In October 2010, USJFCOM/J7 Doctrine and Education Group (DEG) assumed the responsibility for publishing this Joint Qualification Report as it is assigned as the action office for joint course certification. This report has been modified to reflect only courses that have been joint certified, and contains a detailed listing of report modifications based on the previous report published in Appendix B.

To date, USJFCOM lists 246 active joint certified courses (includes courses undergoing the joint re-certification process – reference Appendix B).

Joint Officer Management (JOM) Background

The Department of Defense Joint Officer Management Joint Qualification System Implementation Plan, 30 March 2007, outlines the multi-level joint qualification concept and identifies lead and supporting organizations responsible for its operations effective 1 October 2007.

Joint Qualified System (JQS)

The Goldwater-Nichols Department of Defense Reorganization Act of 1986 set the criteria for joint positions that the Defense Department has used ever since. The new Joint Qualification System, announced on 30 July 2007, keeps in place the tenets of the act, but allows for the post-9/11 operating environment. The new system, which took effect 1 October 2007, offers an additional “experience-based” track with a point system for recognizing joint service. The original track remains in place, but the second track allows for awarding partial credit or for awarding credit for an expanded list of joint positions. All original educational requirements remain in place, but some credit can be given for additional education, training, and exercises.

The new system recognizes the skills that aid U.S. military efforts to respond to national security threats, as well as interagency, combat operations, and humanitarian crises. It also accounts for the intensity, environment, and duration or frequency of a joint activity. A key change is the ability to award credit to reserve component officers, previously not allowed.

Active-duty officers will be able to recover credit for positions served since 11 September 2001. Reserve component officers who served in qualifying joint assignments from 1 October 1986, until 30 September 2007, may be awarded joint duty credit. As of 1 October 2008, active component officers are required to complete a full joint duty assignment and be designated a joint qualified officer for appointment to the rank of general or flag officer.

Joint Qualification System

The Joint Qualification System (JQS) authorized in NDAA 2007 (Public Law 109-364) provides a dual-track opportunity to earn joint qualifications.

Dual-Track

Joint Qualified Officer (JQO) Points

USJFCOM Doctrine and Education Group (DEG) serves as the action office for certification and scoring of individual Joint training in support of the Office of the Secretary of Defense (OSD) chaired JOM board. It provides course certification outreach, and identifies new individual Joint training sources from the combatant commands, Services, and Combat Support Agencies. DEG works with the Joint Staff and OSD to increase understanding of JQS and its alignment with the Joint Learning Continuum within the joint community.

The following matrix describes points awarded based on cumulative credit hours within a UJTL task area:

Hours Training	Number JQO Points
<16 hours	0 points
16 - 39 hours	.5 point
40 – 59 hours	1 point
60 – 99 hours	1.5 points
≥ 100 hours	2 points

Note: 2 points is the maximum award.

Joint Certification Process

Joint certification originated with Enclosure H of the Joint Training Manual, CJCSM 3500.03B, signed 31 August 2007. CJCSM 3500.03 B, identifies USJFCOM JWFC J7 to lead and manage the joint individual learning content certification process.

DJSM 30603-09, Joint Individual Learning Certification Criteria, signed 19 October 2009 supersedes the joint course certification criteria cited in CJCSM 3500.03B, Enclosure H. The joint course certification criteria are cited below.

The certification criteria are eight-fold:

1. Course must meet a joint training requirement that supports a joint operational need as identified in the USJFCOM Joint Training Plan, a combatant commander's joint training plan, or demonstrate a linkage to an authoritative joint document.
2. Course content must be in accordance with current joint doctrine as identified in CJCSM 3500.03B and CJCSI 5120.02A. The Office of Primary Responsibility (OPR) should ensure that joint doctrine is consulted as part of the overall course development process. Content, including emerging operational processes, best practices, doctrinal definitions, terms, acronyms and abbreviations must not conflict with current doctrinal publications and those publications must be listed among the course references.
3. Course learning objectives must be linked to Universal Joint Tasks (UJT). Joint course objectives that support joint requirements should easily link to one or more UJTs. The OPR must tie course objectives to the UJT list as part of the overall course development process.
4. Course must have an assessment that tests and documents a learner's achievement of the course objectives. The course assessment must have an evaluation standard (examples pass/fail, minimum score).
5. Course must have a lifecycle maintenance plan and be reviewed and updated to ensure course content currency. Courses that have been certified as joint must be reviewed by the OPR and updated regularly to reflect revisions in joint doctrine, time sensitive information, and/or content modifications to ensure content accuracy. USJFCOM will initiate a recertification process a minimum of 36 months from the date of previous certification. However, at a minimum the OPR will update the course as often as required. The process will focus on currency of information, consistency with other related courses, doctrinal and UJT consistency, and quality of content. A course's joint certification status is subject to decertification if it does not satisfy the recertification process.
6. Course should support the interest of two or more military departments and be accessible to all Service personnel that meet course requirements. Ideally, the intent is for all Services to be able to accept the program of instruction as meeting appropriate course content.
7. Joint course instructors must possess relevant experience and knowledge of joint operations and/or activities related to the course.

8. Prior to course development, the OPR should consult the Certified Joint Individual Learning Content Database to verify that the course content does not already exist. OPRs are encouraged to use the existing course content to fulfill a joint training requirement. If a course similar to an existing course must be developed, the responsible individuals and organizations should provide compelling justification for course duplication.

Any entity may identify joint content and provide data to support the eight criteria. These criteria are examined, and if found to meet the requirements, a certification package is prepared which outlines the details. The certification package is staffed at USJFCOM J7. Once signed, content is deemed to be Joint certified. A list of the current joint content that has been identified and related certification status is provided in Appendix A.
