

# CONSERVATION & SUSTAINABILITY

## DID YOU KNOW?

- The National Guard is a leader in conservation and sustainability efforts within the Defense Department.
- Michigan National Guard's Camp Grayling has been net-zero for water usage and waste water production for more than 20 years.
- Environmental stewardship best practices are shared with State Partnership Program partner countries like El Salvador and Honduras.
- "No heat, no cool" weeks in the Nevada Air National Guard reduced energy usage by 36% in 2014.
- West Virginia and Florida Army National Guard took top honors in the 2016 Secretary of the Army Environmental Awards.
- Guard members completed 9,320 training hours in working on or building environmental projects.

## NATIONAL GUARD SNAPSHOT

Since 2013, Army National Guard decreased potable water consumption by 786.3 million gallons; Air National Guard decreased potable water by 51.2 million gallons.

Land managed by the Army Guard. That's roughly **three** times the size of the state of Rhode Island.
