

National Guard Reaction Force

Highlights

Potential Missions:

- Graduated Response
- Crowd Management
- De-escalation of Force
- Deployment of Non-lethal weapons
- Employ Control Force Formations
- Employment of Handheld Communications Devices

Unique Capabilities:

- Crowd Control Support Modules - Personal protective gear (face shields, body shields, body armor and shin guards)
- TASERS, Oleoresin Capsicum Spray and batons
- Logistically self-sustaining for up to 72 hours
- XL200P Radios (KT)

Mission:

The National Guard Reaction Force (NGRF) is comprised of Soldiers and Airmen from existing NG units to provide a rapid response capability focused on incidents requiring law enforcement or security support.

The NGRF is a next-operational-period capability utilizing both full-time and drill status guardsmen. They are designed to respond to emergency events with ~20% of available NGRF personnel and equipment within 8 hours and the remaining forces in 24-36 hours.

NGRFs are temporary task forces and perform their mission according to laws and regulations of the state / territory where they operate.
