

NATIONAL GUARD SPACE OPERATIONS

FACT SHEET

MISSION: Provide ready and relevant National Guard space forces.

VISION: National Guard space forces, ready, relevant and aligned as the premier reserve component to meet USSF and COCOM warfighting requirements, and to support their states' citizens in their time of need.

NG SPACE MISSION FACTS

- The Air National Guard has been conducting space missions for over 25 years.
- It is the only unit-equipped combat reserve component of the United States Space Force.
- The nation's primary surge-to-war reserve component space forces reside in 14 units in seven states (AK, CA, CO, FL, HI, NY, OH) and one territory (GU).
- 1,000+ Airmen make up 11% of Space Force professionals.
- ANG operates the nation's only survivable and enduring strategic missile warning/nuclear detection capability.
- ANG provides the nation's strategic missile warning on the High Frontier.
- ANG provides 60% of the Space Force's space electronic warfare deployable capabilities.
