(b) (6)

Good morning!

I am trying to catch up on all of my action items this week. I believe I owe you three things at the moment:

(b) (4)

Is there anything else that I owe you?

July 2007

We in the field are writing to address some issues which have been bothering us for a while. This letter is prompted by the recent announcement of the National Child Care Benefit Project. It seems to us who have been involved in the Youth Program for some time that this project is a way for the National office to once again have (b) (6) return to the program. This would be a disaster for many reasons.

(b) (6) was an ineffective National Youth Manager who did little to improve the support and resources provided to State Youth Programs and in fact usually added to our already heavy workload. Questions and concerns addressed to (b) (6) were given lip service but rarely followed up on. When she moved up and ran the larger contract which included GFAP and GFTB as well as assessments those worthwhile programs were either cancelled, modified, or completely changed and they too no longer provided anything of substance to the field.

Another concern to the field is that (b) (6) has been seen in different cities at National Guard Family events in compromising romantic positions (kissing, holding hands, one leaving the others hotel room in the early morning hours) with (b) (6) of the National Family Program Office while both proclaim to be happily (b) (6) to other people. This relationship has been alleged for a number of years while both were involved in the Family Program in Indiana and persons who were volunteers there speak of it frequently as an embarrassment to the state. Both were allegedly fired from their duties in Indiana and (b) (6) was recently fired from a National Family Program contract position.

It was also learned by our group that (b) (6) has recently emerged as a contract employee for the group Connect & Join who maintain an involvement in the National Youth Program and by proxy she has re-established her involvement through her relationship with Mr. Conner.

We feel that the National Program has declined tremendously in the last year and in this letter we hope to raise the concern that the contracting process is being manipulated by Mr. Conner by working with a contractor in an effort to have (b) (6) return to the program. Our concern also extends to the fact that (b) (6) seems to have turned a blind eye to the state of the program and his personnel.

Although a letter of this nature is an extreme measure there are many in the field who feel disappointed and ashamed to have persons conducting an adulterous affair be in the forefront of our National Family Program and provide guidance like they are authorities on family values. Enclosed is a copy of the NG Child Care Benefit Project announcement for your reference. Should (b) (6) be brought back to the program our group is prepared to go to the media with our story and concerns.

Statement regarding Child Care requirement

(b) (5)

The NGB J1 has a requirement to conduct analysis and potentially implement child care support to deployed soldiers families. The J1 was resourced by the Department of the Army \$2.9M for this requirement. The J1 points of contact coordination of this requirement are Mr. Mike Conner, and (b) (6) (b) (6)

Allutiiq International Solutions (an Alaskan Native Company) was provided with a statement of objectives by NGB-AQ. This statement of objectives was developed the J1. Both Mr. Conner and (b) (6) (b) (6) were advised to have no contact with the Contractor to ensure that the procurement process is consistent with statutory and regulatory guidance. (b) (5)

(b) (5) In an email dated 26 March 2007, I asked Mr. Conner if IGE information was discussed or disclosed to the contractor. Mr. Conner's response was that "I did not discuss anything with them. I can assure you I would never discuss any IGE information with any contractor, potential or current.." (See copy of email).

Allutiiq International Solutions responded to NGB-AQ (b) (4) (b) (4) More significantly, the Contractor proposed (b) (6) (b) (6) to be the program manager of the project. (b) (6) is (b) (6) (b) (6) Mike Conner. It is believed that (b) (6) was (b) (5), (b) (6) (b) (5), (b) (6) with Mike Conner.

NGB-AQ contacted the Contractor to determine who recommended (b) (6) to be the program manager. Allutiiq International Solutions responded that Mike Conner personally requested that she be selected.
