

(ii) Cost-reimbursement contracts--add to contract fee.

(i) Concurrent and future contract savings.

(1) Payments of the Contractor's share of concurrent and future contract savings shall be made by a modification to the instant contract in accordance with subparagraph (h)(5) above. For incentive contracts, shares shall be added as a separate firm-fixed-price line item on the instant contract. The Contractor shall maintain records adequate to identify the first delivered unit for 3 years after final payment under this contract.

(2) The Contracting Officer shall calculate the Contractor's share of concurrent contract savings by (i) subtracting from the reduction in price negotiated on the concurrent contract any Government costs or negative instant contract savings not yet offset and (ii) multiplying the result by the Contractor's sharing rate.

(3) The Contracting Officer shall calculate the Contractor's share of future contract savings by (i) multiplying the future unit cost reduction by the number of future contract units scheduled for delivery during the sharing period, (ii) subtracting any Government costs or negative instant contract savings not yet offset, and (iii) multiplying the result by the Contractor's sharing rate.

(4) When the Government wishes and the Contractor agrees, the Contractor's share of future contract savings may be paid in a single lump sum rather than in a series of payments over time as future contracts are awarded. Under this alternate procedure, the future contract savings may be calculated when the VECP is accepted, on the basis of the Contracting Officer's forecast of the number of units that will be delivered during the sharing period. The Contractor's share shall be included in a modification to this contract (see subparagraph (h)(3) above) and shall not be subject to subsequent adjustment.

(5) Alternate no-cost settlement method. When, in accordance with subsection 48.104-4 of the Federal Acquisition Regulation, the Government and the Contractor mutually agree to use the no-cost settlement method, the following applies:

(i) The Contractor will keep all the savings on the instant contract and on its concurrent contracts only.

(ii) The Government will keep all the savings resulting from concurrent contracts placed on other sources, savings from all future contracts, and all collateral savings.

(j) Collateral savings. If a VECP is accepted, the Contracting Officer will increase the instant contract amount, as specified in paragraph (h)(5) of this clause, by a rate from 20 to 100 percent, as determined by the Contracting Officer, of any projected collateral savings determined to be realized in a typical year of use after subtracting any Government costs not previously offset. However, the Contractor's share of collateral savings will not exceed the contract's firm-fixed-price, target price, target cost, or estimated cost, at the time the VECP is accepted, or \$100,000, whichever is greater. The Contracting Officer will be the sole determiner of the amount of collateral savings.

(k) Relationship to other incentives. Only those benefits of an accepted VECP not rewardable under performance, design-to-cost (production unit cost, operating and support costs, reliability and maintainability), or similar incentives shall be rewarded under this clause. However, the targets of such incentives affected by the VECP shall not be adjusted because of VECP acceptance. If this contract specifies targets but provides no incentive to surpass them, the value engineering sharing shall apply only to the amount of achievement better than target.

(l) Subcontracts. The Contractor shall include an appropriate value engineering clause in any subcontract of \$100,000 or more and may include one in subcontracts of lesser value. In calculating any adjustment in this contract's price for instant contract savings (or negative instant contract savings), the Contractor's allowable development and implementation costs shall include any subcontractor's allowable development and implementation costs, and any value engineering incentive payments to a subcontractor, clearly resulting from a VECP accepted by the Government under this contract. The Contractor may choose any arrangement for subcontractor value

engineering incentive payments; provided, that the payments shall not reduce the Government's share of concurrent or future contract savings or collateral savings.

(m) Data. The Contractor may restrict the Government's right to use any part of a VECP or the supporting data by marking the following legend on the affected parts:

"These data, furnished under the Value Engineering clause of contract . . . . . , shall not be disclosed outside the Government or duplicated, used, or disclosed, in whole or in part, for any purpose other than to evaluate a value engineering change proposal submitted under the clause. This restriction does not limit the Government's right to use information contained in these data if it has been obtained or is otherwise available from the Contractor or from another source without limitations."

If a VECP is accepted, the Contractor hereby grants the Government unlimited rights in the VECP and supporting data, except that, with respect to data qualifying and submitted as limited rights technical data, the Government shall have the rights specified in the contract modification implementing the VECP and shall appropriately mark the data. (The terms "unlimited rights" and "limited rights" are defined in Part 27 of the Federal Acquisition Regulation.)

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(s): <http://farsite.hill.af.mil>.

(End of clause)

52.252-4 ALTERATIONS IN CONTRACT (APR 1984)

Portions of this contract are altered as follows: NONE

(End of clause)

52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES (APR 1984)

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.

(b) The use in this solicitation or contract of any DFAR (48 CFR) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of clause)

**ATTACHMENT 2A      Labor Category Descriptions**

**SCHEDULE V**

**LABOR CATEGORY DESCRIPTIONS**

**Specialized Experience:**

**Each labor category can include an "A" category, which designates the individual must possess highly desirable Army/Air National Guard experience. The experience required is detailed below by grade level (GS Equiv).**

GS-9 A

Possess additional Army/Air Guard experience/knowledge directly related to the requirements of the Task Order.

GS-11 A

Possess additional Army/Air Guard experience directly related to the requirements of the Task Order, has a working understanding of the position functions and has sufficient knowledge to perform the work of the position described in the Task Order.

GS-12 A

Possess additional Army/Air National Guard experience that demonstrates the individual is a prominent and recognized authority in the subject matter field or area of consultation and has broad knowledge and skills to perform the work of the position described in the Task Order.

SCH #	Labor Category	Educ/Degree	GS Equiv	Yrs Exp	Special Training or Experience
5	Supply Manager I	B	GS-9	1	Desired Bachelor's degree or demonstrated practical experience in the area of expertise required by the Task Order. Responsibilities may include providing technical support to supporting and deploying units, supply purchase request status, maintain accountable balances, determine excess and processes request, turn-ins and receipts.
5	Supply Manager II	B	GS-11	3	Desired Bachelor's degree or demonstrated practical experience in the area of expertise required by the Task Order. Responsibilities may include providing technical support to supporting and deploying units, supply purchase request status, maintain accountable balances, determine excess and processes request, turn-ins and receipts. Additional responsibilities may include overseeing the supply management operation, provide the customer with a daily status, verifies accurate assignment of parts, accurate process of Material Release Orders (MRO), verify accurate assignment of parts in the warehouse location, assist customers with inquiries regarding supply/ logistics and technical questions to supervise the supply operation of the warehouse.
5	Logistics Manager I	B	GS-9	1	Desired Bachelor's Degree or demonstrated practical experience required by the Task Order. Provides property accountability management and visibility support functions. Responsibilities may include processing adjustment documents and hand receipt transfer requests. Maintain suspense, supporting document files, request control log, Excel spreadsheet, and property book accountability. Maintain monthly Due-In Reconciliations and request Control Logs. Track automation equipment issued. Identifies property accountability and visibility problem areas, determines required correction action and provides information to the Property Book Office on the findings of evaluations, reports, and summaries.
5	Logistics Manager II	B	GS-11	3	Desired Bachelor's Degree or demonstrated practical experience required by the Task Order. Oversees the supply management operation and provides property accountability management and visibility support functions. Responsibilities may include processing adjustment documents and hand receipt transfer requests. Maintain suspense, supporting document files, request control log, excel spreadsheet, and property book accountability. Maintain monthly Due-In

					Reconciliations and request Control Logs. Track automation equipment issued. Identifies property accountability and visibility problem areas, determines required correction action and provides information to the Property Book Office on the findings of evaluations, reports, and summaries. Oversees the supply management operation.
5	Program Coordinator I	B	GS-9	3	Desired Bachelor's Degree or demonstrated practical experience in the Supply/Logistic area(s) of expertise required by the Task Order, as well as a demonstrated capability in program/project coordination applications.
5	Program Coordinator II	B	GS-11	5	Highly desired Bachelor's Degree or demonstrated practical experience in the Supply/Logistic area(s) of expertise required by the Task Order, as well as a demonstrated capability in program/project coordination applications.
5	Supply Systems Analyst I	B	GS-9	3	Desired Bachelor's Degree or demonstrated practical experience required by the Task Order. Responsibilities may include reviewing, analyzing and interpreting supply directives and guidelines to formulate and implement effective operating procedures to achieve optimum logistical support. Other combinations of experience and education that meet the minimum qualifications may be substituted.
5	Supply Systems Analyst II	B	GS-11	5	Desired Bachelor's Degree or demonstrated practical experience required by the Task Order. Responsibilities may include reviewing, analyzing, and interpreting supply directives and guidelines to formulate and implement effective operating procedures to achieve optimum logistical support. Plan, schedule, and assign work to subordinates. Establish guidelines and performance expectations for staff members; provide feedback and periodically evaluates employee performance. Other combinations of experience and education that meet the minimum qualifications may be substituted.
5	Program Manager I	B	GS-12	7	Highly desired Bachelor's Degree in area(s) of expertise required by the Task Order. The individual must have 7 years experience within a specific business or technical management discipline (Govt or industry) identified in the Task Order. Responsibilities may include directing, coordinating and planning warehouse storage and distribution of products and materials and/or transportation management. Other combinations of experience and education that meet the

minimum qualifications may be substituted.
